

ICM 1651 Ready to use water repellant for exterior glass

Description

This product is a ready to use water repellant for exterior glass viewing windows. This product repels rain and snow while reducing ice and grime build-up for improved visibility. This product is for exterior use only.

Key Features

- World class surface reactive hydrophobic glass treatment
- Long lasting versus non-reactive versions that dominate the market today
- Easy to apply one pot treatment
- Imparts "self cleaning" effect to vertical glass surfaces

Key Applications

- Exterior glass water repellent
- Car Care

Use and Cure Information

Clean the exterior glass surface and apply product using a clean cloth. Wipe the product on with firm, circular, and overlapping strokes. Once product has been applied, allow slight haze to appear and remove it with a dry cloth until clear. For use on exterior surfaces only.

Limitations

This product is not intended for pharmaceutical use.
